You can Win is a book by Shiv Khera, the renowned author, educator, business consultant and successful entrepreneur. This book is an international best-seller with over 3.3 million copies sold in 16 languages.

You can Win by Shiv Khera is a motivational and self-help book that inspires readers to unlock their true potential and achieve success through positive thinking and action. It has 13 chapters which deal with topics such as importance of positive attitude, success, motivation, self-esteem, personality, habit, goals and the importance of interpersonal skills. It is written in a simple and lucid style with real life examples and step-by-step strategies for achievers.

One of the main strengths of the book is its clear message "Winners don't do different things, they do things differently". The book has a common sense appeal and induces the reader to refer to it again and again. This book is not the read and forget type but a kind of a building manual helping the reader build his life into a successful and fulfilling one. It gives the message that one is not

expected to win every battle but the ultimate war has to be won. Author reminds the reader that the winner is always part of the answer and the loser is always part of the problem. The book has simplified deep philosophies to make the reader realise its true worth.

Recommendation: I highly recommend 'You can Win' to students professionals and anyone who wants to bring a positive change in ~~real~~ life. It is especially helpful for those who feel stuck, lack motivation or are unsure of their goal. The book is not just about success but about becoming a better person with strong values and ethics.
